INTRODUCTION

This catalogue documents all surviving photographs of the famous naturalist Alfred Russel Wallace (ARW) (1823-1913), plus all known drawings and paintings of him made during his lifetime.

A total of 83 different photographs, 1 painting and 14 drawings of ARW are currently known. Interestingly no contemporary caricatures of him seem to exist, in contrast to the many of Charles Darwin.

ARW was only photographed six times prior to his departure for the Malay Archipelago in 1854, because photography was in its infancy and he did not have much money. However, towards the end of his life he was photographed more frequently, because by then he was famous and also because photography was at that point much cheaper and easier to do. ARW's brother-in-law Thomas Sims (1826-1910) was a professional photographer and some, perhaps all, of the early photographs are by him, as are a number of the later ones. Other photographers include the well known firms of Maull & Fox and Elliott & Fry, and the famous photographer Emil Otto Hoppé (1878-1972). It is worth noting that ARW always wore the parting in his hair on the left hand side of his head - so images showing his parting on his right are mirror images (laterally inverted).

Sadly no photograph exists which shows the co-discoverers of evolution by natural selection (ARW and Charles Darwin) together, despite the best attempts of German zoologist Adolf Bernhard Meyer (1840-1911). Meyer wrote to Darwin in 1869 about a German translation he was preparing of Darwin and ARW's 1858 ‘joint paper' in which their theory of natural selection was first published. He wanted photographs of both men for publication in it and wrote "...perhaps you will not object to have your photograph taken with Mr Wallace in one picture, and if this idea meets your approval you might perhaps carry it out when you go to London at Christmas time or earlier if possible." Sadly for us Darwin declined the request, replying "...I am not willing to sit on purpose; it is what I hate doing & wastes a whole day owing to my weak health; and to sit with another person would cause still more trouble & delay" ARW, receiving the same request from Meyer, and perhaps sensing that it would be awkward and difficult for Darwin, wrote to Darwin saying "It is of course out of the question our meeting to be photographed together, as Mr. Meyer coolly proposes." In the end Meyer's translation was published without photographs of the two men.

A number of the photographs listed in the catalogue below were never published during ARW's lifetime and often only a single original example seems to have survived. This is even the case for many of his carte de visites, despite the fact that he must have sent copies of some of them to many friends and admirers. We owe the preservation of many of the sole surviving original images of ARW to his family. His son William and daughter Violet donated 15 photographs and 1 painting to London's National Portrait Gallery after ARW’s death, while other photographs remained in the family until recently, when a number were purchased by or were donated to London's Natural History Museum. Some unique original photographs are still owned by the family.
It is likely that this catalogue is incomplete and that a few portraits remain to be discovered, especially in libraries and other archives, and also in publications about ARW. Since Version 2, four additional photographs have been found and are now included. If you have additional information about any of the portraits below, or know of any which have been have missed, then I would be very pleased to hear from you. I can be contacted at g.beccaloni@wallaceletters.org

Please note that high resolution versions of images marked ★ can be supplied by the A. R. Wallace Memorial Fund/George Beccaloni for reproduction in publications (see http://wallacefund.info/reproducing-images).

**ACKNOWLEDGEMENTS**

I am extremely grateful to Richard and the late John Wallace for allowing me to photograph or scan portraits in their possession. I am also very grateful to Charles Smith (USA) for his considerable help in locating published portraits and to James Moore (UK) for supplying biographical information about some of ARW's photographers.

I would also like to thank the Barking and District Historical Society, English Heritage, the E. O. Hoppé Estate, the National Portrait Gallery, London, the Linnean Society of London, the Natural History Museum, London, Oxford University Museum, the Royal Collection Trust, the Royal Entomological Society, Charles Smith and Fred Langford Edwards for allowing me to reproduce digital images of portraits which they own the reproduction rights to.

**ENDNOTES**

The portraits are arranged chronologically according to ARW's age.

ARW in 1848 aged 25, just before his expedition to the Amazon.

Photographer: unknown (probably Thomas Sims). This is the earliest known image of ARW and its year of creation is taken to be that given in ARW's *My Life* (1905). Curiously, in the 2nd (1908) edition of *My Life* this image is captioned "AGED 24", which would mean that it would have been taken in 1847. The original (a daguerreotype) does not appear to have survived. Note that the image is laterally inverted as in most early daguerreotypes.

This is a scan of a platinotype copy measuring 79 mm x 78 mm. It was donated to the National Portrait Gallery, London, by ARW's children, William and Violet Wallace in 1916 (Photographs Collection. NPG x5108).

First published in *My Life* (1905).

ARW, probably in 1853/54.

Photographer: unknown (probably Thomas Sims). The National Portrait Gallery, London, states that this photo was taken 1847-1849, but it is more likely dated 1853/54.

A calotype print measuring 143 mm x 112 mm. It was donated to the NPG by William and Violet Wallace in 1916 (Photographs Collection NPG x5109).

ARW, aged 39, and his friend Frederick Geach in Singapore in February 1862.

Photographer: unknown. This is the only known photograph of ARW taken whilst he was in the Malay Archipelago. It was taken shortly before he returned to England. The annotations below the image are in ARW's hand. All other versions of this image are copies of this print.

An original print on thin paper which has been pasted onto a sheet of thicker paper. Dimensions of the photographic image are 148 mm x 104 mm.

Scan of the original owned by the Wallace family. It has since been donated to the Natural History Museum, London. A bromide copy print of the image is owned by the National Portrait Gallery, London (Photographs Collection NPG x5110).
